Subject: 2019 Outstanding Performance – WWTP Special Projects

Dear City of Superior,

On behalf of the Wisconsin Department of Natural Resources, it is my pleasure to acknowledge the hard work and effort that the City of Superior has demonstrated over the past few years as it relates to controlling and reducing sewage overflows. The Wastewater Program reviewed wastewater treatment plants around the state, and Superior was nominated and selected as a winner of the “Outstanding Performance – WWTP Special Projects” 2019 award. Below are a few words from Wastewater Program staff on your nomination.

“Actions to optimize collection system and WWTP storage and treatment capacity during wet-weather events have been amazing during last several years. In order to ensure good communication with the department, the staff making up the Environmental Services Division (ESD) have facilitated annual meetings with the Department to discuss the previous year activities and future plans. The decrease in SSO/TFO/CSO events over the last 10 years has been significant.”

We appreciate the daily commitment City of Superior makes to protect our natural resources.

Sincerely,

Adrian Stocks, Water Quality Bureau Director
Wisconsin Department of Natural Resources

cc. Jim Paine, City of Superior Mayor
